## Founder's Story

"When life's toughest challenges stood before me, I began my journey from a modest effort with a straightforward dream - to create taps that combined beauty and utility. I encountered countless obstacles and, at times, felt like I was navigating unfamiliar struggles. But I took risks, learned from my mistakes, and explored fresh ideas. Fast forward **25 years**, and now **Monica is renowned for its excellence in India**. Each Tap & Sanitary fittings we craft narrates our journey, from facing life's challenges to transforming problems into **achievements and creating innovation.**"

## About us

Monica Polymers was **established in 1996**. We are amongst the top manufacturers of high quality range of **plastic sanitary products** in India. We started as a small scale industry for manufacturing PVC Taps. Now we have grown **PAN India with 7 Locations and 150 + Distributors**, with world class manufacturing facility in **Ahmedabad, India**. Our well established infrastructure has the strength and facility to fabricate large number of products at a rapid production rate.

We primarily focus on quality thus; the entire production process at our organisation is carried out under the strict supervision of **qualified professionals**. At our well-developed **quality testing unit**. We have all the required machines and tools that help the team of quality controllers to conduct various tests. After the complete production process, **every single product is tested** so as to ensure that only flawless sanitary product range is delivered for our customers.
